

There are lots of ways you can enhance your child's learning at home!

If you/grandparents have any toys hidden away in attics or elsewhere, share them with your child.

Talk about how different your toys were compared with the toys that children have nowadays. Discuss the materials they are made from.

Play some familiar board games.

Visit your local library and look at any information books on toys or the Moon landings.

Research information on the internet and talk to any grandparents who may recall watching men land on the moon. Make a scrap book or a rocket made from scrap materials.

Find out any information about Tim Peake and his space mission.

Our Learning Journey

Time Traveller and Space Traveller

KING INA

CHURCH OF ENGLAND ACADEMY

Some of the questions that we hope to answer this term.

In Topic:

Time Traveller: Toys and Music

How can we find out about things in the past?

What toys do we play with today? What toys did our parents and grandparents play with?

How are toys today different to those in the past?

What materials were toys made of in the past? What materials are today's toys made of?

What music do we listen to today? What music did our parents and grandparents listen to?

Space Traveller

Who was the first man on the moon? What can we find out about the first moon landing?

Who is Tim Peake and what are his achievements?

In Science: Everyday Materials

What materials can we name? e.g. wood, plastic, metal

What materials are different objects made of?

What are the properties of everyday materials? e.g. hard, soft, waterproof

How are materials used in everyday life? Are some materials more suitable than others?

How can materials be changed? e.g. squashing, bending, stretching

In RE: We will be looking at what Christians believe about Jesus before exploring the Christmas story. We hope you will all be able to join us for our nativity 'The Inn-spectors' in December.

Our Learning Journey

Our topic will begin with a visit from Taunton Museum, who will bring a selection of old toys for the children to explore and discuss. This will be a stimulus from which the children will continue their topic work.

We will learn about changes in living memory and identify similarities and differences between ways of life in different periods.

We will learn about the lives of significant individuals in the past who have contributed to national and international achievements.

We will be looking at different materials and how they can be used to make and create items.

We will conclude our learning surrounding 'Toys and Music' with a Teddy Bears' picnic and ask you to join us on Wednesday 23rd October at 2:20pm.
Don't forget your teddy!
